Amount of income payments from LIFs

Maximum annual life income from LIF that does not provide for temporary income

- 8** The maximum annual amount of life income to be paid each year from a LIF from which no temporary income is paid is determined by the following formula:

$$\text{maximum payable} = F \times B$$

in which

F = is the factor in Schedule 5: Life Income Fund—Factor F that corresponds to the reference rate for the fiscal year and the owner's age at the end of the previous year

B = the balance of the LIF at the beginning of the fiscal year, increased by any money transferred to the LIF after the beginning of that fiscal year and reduced by any money transferred from another LIF, to the LIF, in the same year.

Withdrawal of temporary income from LIFs

- 9 (1)** A LIF may provide that the owner is entitled to temporary income in accordance with this Section and Sections 10 and 11 of this Schedule.
- (2)** An owner of a LIF from which temporary income may be paid who is at least 54 years old but under 65 years old at the end of the calendar year before the date they apply, may apply in an approved form to the financial institution that provides a LIF for payment of temporary income from the LIF.

- (4)** Temporary income is not payable if any portion of a payment out of a LIF is transferred to a registered retirement savings plan or a registered retirement income fund.

Maximum temporary income for fiscal year

- 10 (1)** Except as provided in subsection (2), the maximum temporary income that may be paid during a fiscal year out of a LIF from which temporary income may be paid must be the lesser of the following amounts:
- (a) the amount calculated by the following formula:

$$(50\% \text{ of the YMPE}) - T$$

in which

YMPE = the Year's Maximum Pensionable Earnings for the fiscal year

T = the total of bridging benefits paid to the owner from a pension plan or annuity or from temporary income from other LIFs for that fiscal year;

- (b) the amount calculated by the following formula:

$$F \times B \times D$$

in which

F = is the factor in Schedule 5: Life Income Fund—Factor F that corresponds to the reference rate for the fiscal year and the owner's age at the end of the previous year

B = the balance of the LIF at the beginning of the fiscal year, increased by any money transferred to the LIF after the beginning of that fiscal year and reduced by any money transferred from another LIF, to the LIF, in the same year

D = the factor in Schedule 6: Life Income Fund—Temporary Income Factor D that corresponds to the owner's age at the end of the previous fiscal year.

- (2) If the amount determined under clause (1)(b) is less than 50% of the Year's Maximum Pensionable Earnings, then the maximum temporary income paid out of a LIF during a fiscal year must be the lesser of the following amounts:

- (a) the amount calculated under clause (1)(a);

Maximum life income withdrawal from LIFs

- 11** The maximum life income to be paid from a LIF from which a temporary income is paid is determined by the following formula, provided that the maximum must not be less than zero:

$$\text{maximum payable} = (F \times B) - (Y \div D)$$

in which

F = the factor in Schedule 5: Life Income Fund—Factor F that corresponds to the reference rate for the fiscal year and the owner's age at the end of the previous year

B = the balance of the LIF at the beginning of the fiscal year, increased by any money transferred to the LIF after the beginning of that fiscal year and reduced by any money transferred from another LIF, to the LIF, in the same year

Y = the maximum annual temporary income determined under Section 10 of this Schedule

D = the factor in Schedule 6: Life Income Fund—Temporary Income Factor D that corresponds to the owner's age at the end of the previous year.

Maximum annual income payable if financial institution guarantees rate of return of LIFs

12 (1) If a financial institution that provides a LIF guarantees the rate of return of the LIF over a period greater than 1 year and the owner establishes the amount of income to be paid during that period, the maximum income that may be paid during each of the fiscal years during the period must be determined at the beginning of each fiscal year in the period in accordance with this Section.

(2) For each year after the initial fiscal year, the maximum income to be paid for the fiscal year under a LIF described in subsection (1) is equal to the lesser of the following amounts:

(a) the balance of the LIF at the time of payment in that year;

$$\text{maximum income} = (I \times B) \div RB$$

in which

I = the maximum income determined for the initial fiscal year under Section 11 of this Schedule

B = the balance of the LIF at the beginning of the fiscal year

RB = the reference balance determined at January 1 of the year as calculated under subsection (3).

(3) For the formula in clause (2)(b), the reference balance ("RB") must be calculated by the following formula:

$$RB = (PRB - I) + ((PRB - I) \times RR/100)$$

in which

PRB = the reference balance

(i) at the beginning of the previous year, or

(ii) for the 2nd year of the period, the LIF balance at the beginning of the 1st year of the period

I = the maximum income determined for the initial fiscal year

RR = the reference rate for the year, if the fiscal year is one of the first 16 fiscal years of the LIF, or by 6% for any other year.

Income in excess of maximum

13 If income paid to an owner under a LIF during a fiscal year exceeds the maximum that may be paid, the balance of the LIF must not be reduced by the excess unless the payment is attributable to incorrect information provided by the owner.
