CALCULATION OF RETURNS

Between your investment's purchase date and issue date, your capital will yield the redeemable 1-year rate.

Between the issue date and the maturity date, the return is based on the variation in the price of 20 equal-weighted equity securities.

To mitigate the effects of potential security downturns at maturity, the average monthly prices for each security during the term's final 3 month period is taken into account.

TAXATION

For Market-Linked Guaranteed Investments not held in a registered product, the pre-issue interest is considered to be interest income for the year the Guaranteed Investment is issued. Interest paid at maturity is considered to be interest income for tax purposes in the year it is paid.
